

BANKS AND KING, LLC

To whom it may concern,

In 2005 I had a company create a web-site for my company. The company I will not mention because it was a horrible experience. I spent a lot of time and money and got little results and no feedback.

In 2006, I was introduced to David Green and Net Green Consulting, Inc. I did not inform him or his company of the total situation, only that I was cautious of whom I would hire to produce our web site due to past experiences.

After reviewing several potential companies to do this arduous task that I felt to be necessary for marketing strategies, I chose David at Net Green Consulting, Inc. because he was **always on time, made excellent suggestions based on our needs, and had a very reasonable price.**

David got our web-site up and running before the scheduled time that he told us and it cost less than he had originally quoted. He often calls and gives me status based on inquiries of visitors to our web-site and continually keeps us updated with features of similar companies that he believes to be comparable to ours.

I would suggest David Green and Net Green Consulting, Inc. to be your choice for web design and maintenance and no one else.

If you are looking for customer service, quality and assurance, look no further, choose Net Green Consulting, Inc. and **be satisfied better than you would be anywhere else.**

With sincerest gratitude,

James R. King, III
